

Jon Lang

"Jon Lang is the best of the best."

Background

Jon Lang has been a full-time mediator for over 20 years and is now one of the most sought-after commercial mediators in the UK. A calm and measured approach, combined with wide-ranging experience whilst in private practice at all levels of the judicial system (including acting in a number of reported cases), and in domestic and international arbitration and mediation, Jon has gained a reputation as one of the UK's most experienced mediators. He has been listed in the first tier of mediator rankings of both the Chambers & Partners and Legal 500 directories for a number of years. Jon is also recognised in The International Who's Who of commercial mediators.

Whilst in private practice, Jon acted for clients across a wide variety of industry sectors, from aviation to underwriting and in most types of commercial dispute, from shareholder actions to professional negligence. Whilst in-house counsel at LIFFE, Jon advised on matters relevant to the then financial services regulatory regime as well as looking after Exchange related arbitrations and disciplinary investigations.

Jon is asked to act as mediator in a wide variety of disputes both in the UK and overseas, from multi-party international trade cases involving proceedings in various jurisdictions to cases involving multiple and diverse claims between members of partnerships. Many of Jon's cases increasingly require a significant element of 'process design' beyond the norm, and he is always very pleased to assist in developing a process best suited to the parties and dispute being mediated.

Jon has acted as an expert in mediation and is a former Chair of the Mediation Committee of the International Bar Association, a former Vice-Chair of the American Bar Association's International Mediation Committee and a member of CPR's Panel of Distinguished Neutrals. Jon is also the author of the book, 'A Practical Guide to Mediation in Intellectual Property, Technology & Related Disputes' published by Sweet & Maxwell in 2006.

Mediation Style and Approach

With twenty years of litigation practice behind him (and having mediated on a full-time basis for over twenty years since leaving private practice in May 2005), Jon draws on his extensive experience of not just mediating, but also (whilst in private practice) negotiating settlements on behalf of his clients and representing them at mediation.

Jon has a calm and measured approach and works hard with the parties to reach a deal. He mediates in the practice areas listed below and representative examples of cases in each of those areas can be provided on request.
